

Highest Output with Minimum Outlay

- Easy adjustments
- Low energy costs
- High level of security

High efficiency finishing machine

Unbeatable

The ZAHORANSKY product spectrum is complemented in the area of finishing machines with the ZAHORANSKY RW "made by GIORI".

A high standard of technology combined with service from the German market leader results in an unbeatable price/performance ratio.

Ready, steady, go

Automatic trimming machine to finish round head toilette brushes, dish washing brushes and dusting brushes.

Brushes are loaded manually, the machine starts automatically when the operator removes his hands from the clamping stations.

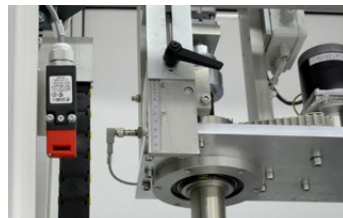

The simultaneous trimming of two brushes per work cycle allows high productivity (600 - 900 brushes/h) and excellent finish through the use of two rotating trimmers with 6 cutting edges.

Benefits

- Automatic ejection of the product at the end of the cycle
- Easily adjustable to fit to diameter and length of a wide range of brushes
- Low energy costs
- Small footprint
- Solid construction of all parts
- High level of security
- Unbeatable price/performance ratio
